

What will I learn in **Second Grade**

at Tri-City Christian Academy?

Bible

Our understanding of salvation will broaden. We will grow spiritually as we gain a greater appreciation for God's Word. Biblical principles will be emphasized and used throughout the entire day of instruction, revealing God's character and attributes.

Phonics/grammar

Phonics rules from kindergarten and first grade will be reviewed and applied. We will broaden our vocabulary as well as learn about sentence structure and parts of speech. We will follow five steps in the writing process to produce letter, stories, and reports.

Literature

Thomas Edison and Helen Keller are just two of the many people we will read about in second grade. Studying and emulating their character will be two of our goals.

Writing

We will master cursive writing.

Math

We will be amazed at God's orderliness as we add, subtract, multiply, and divide. We will learn about stewardship as we count money and measure time, temperature, and linear and liquid units. We will cultivate thinking skills as we solve story problems and draw conclusions from graphs.

Health, Science, History

We will study all five senses. We will learn about our bodies, which are wonderfully made (Psalms 139:14). God's design and purpose will be apparent as we study animals and plants He has made. We will see His sovereignty in the lives of pilgrims, patriots, and pioneers, as well as modern inventions.

Special Activities

- Spirit Week/Pep Rally
- Field Trip
- Grandparents' Day
- Art projects
- ... and lots more
